

# Save a trip to the clinic with at-home blood draws.

Now, it's easier than ever. When it's time to get tested, we'll connect you to a licensed phlebotomist who can plan a visit at your convenience—**all at no added cost.**

**What to expect** from the mobile phlebotomy service:

- 1 Your doctor orders the Guardant test.
- 2 Guardant will call you from 1.855.698.8887 in 1-3 days to confirm your address.
- 3 A test kit will arrive at your address.
- 4 A phlebotomist will call you in 1-3 days to schedule the blood draw.
- 5 Once the sample is collected, it's sent to Guardant overnight.

**My blood draw appointment is on:**

**Date:** \_\_\_\_\_ **Time:** \_\_\_\_\_

# What happens after my doctor receives the report?

Our tests help your doctor decide what's next in your treatment plan. You can expect to **discuss the results with your doctor** at an upcoming appointment.\*

## Get more information

If you have any questions about at-home blood draws, call **1.855.698.8887** and select option “1” for client services, and then “1” for the mobile phlebotomy team.

**Don't miss the Guardant call.**  
Scan the QR code to add Guardant to your contacts.

\*The time it takes from when Guardant receives your sample to when your doctor receives your report varies by test: 2 weeks for Guardant Reveal™, 7 days for Guardant360® CDx, 10 days for Guardant360®, 2-3 weeks for Guardant360 TissueNext™, and under 2 weeks for Guardant360 Response™.
