

# We have you **covered.**

Our tests are covered by Medicare and major insurance companies.

More than  
**9 out of 10**  
**patients pay \$0**  
for their Guardant test\*

For patients who need a little extra help,  
we created the **Guardant Access Program**  
to support you at no additional cost:

**Handles confusing insurance  
paperwork** on your behalf.

Works behind the scenes to help  
**lower your out-of-pocket costs.**

**Scan to learn more about  
Guardant Access.**

\*For patients with a Guardant360 CDx or Guardant360 liquid biopsy.

## Your checklist:

Enroll in Guardant Access by signing the back of the order form.

---

We'll rarely need to call you, but if we do, it's to make sure we have everything we need to keep your testing on track. **Scan the QR code to save Guardant Health in your contacts so you don't miss an important call.**

---

**And that's it!** Guardant has the rest covered.

## Helpful reminders:

Your insurance may send you an explanation of benefits (EOB) — **this is not a bill.**

Some Medicare patients may be required to sign an Advance Beneficiary Notice (ABN). **This does not commit you to a specific cost**, and you are still eligible for the Guardant Access Program.

If your test is denied, **Guardant will reach out to your insurance** and appeal on your behalf.

---

**We are here for you. Call Guardant live billing support at 855-698-8887 with any questions.**
